2. The biggest problem for the Communists in connection with the operation of an air line is the procurement of parts, fuel and other aviation products which are produced in the United States and banned for export to Communist China**. New stocks of aviation gasoline are needed but all firms refuse to ship to the Communists***.

25X1

Comment. The Communists originally announced that, when the Hong Kong Government released the CATC and CMAC planes, the planes would be available for lease to interested parties. Since the decision, which was in favor of the Communists, Communist statements indicate that the planes will not be leased as planned but will be operated by the Chinese Communist Government over air routes which will be on a limited scale but will include the China-USSR link.

25X1

25X1

Comment. At the time of the Communist takeover aviation gasoline
